

Today's Communiques

British

GIBRALTAR, Sept. 25.—An official bulletin, issued early Wednesday, said:

"Some 100 more aircraft of French origin from a height of 20,000 feet bombed Gibraltar, dropping about 100 bombs."

"Damage so far are four killed and 12 wounded."

"Damage to the enemy is uncertain, but at least one plane was shot down."

"The raiders made some low dives below the clouds and were given good targets by anti-aircraft ships. Some buildings and roads were damaged."

"All British firms were started but were quickly brought under control."

LONDON, Sept. 25.—The air ministry issued the following communiqué yesterday:

"Heavy bombers of the Royal Air Force Tuesday night carried the war into the German capital for the second time in three days."

"A number of military objectives in the heart of Berlin were hit, including a factory which lasted for over two hours and a half."

"It began shortly after 10:30 p.m., when most of the attackers evading the intense barrage of the city's ground defences, located and bombed the Krupp, Thyssen and Halske factories, which produce a large proportion of the electrical armament used by the German armed forces."

TWO GREAT FIRES

"Two great fires were seen to break out in the target area after the bombing."

"At one o'clock this morning an attack was made on Berlin's electric power system, and a gas works station at Friederichsfeide which supplies much of the city's industrial current. Bombs exploded in Berlin and Brighton and at Southampton and Woodstock airbase factory plane."

"In the course of the day several attacks developed over south-east England with the result that many more German planes were shot down."

"A 3,000-ton merchant ship was severely damaged off the south-west coast of Ireland and another at 10 miles off the coast of Northern Ireland. A freighter ship was severely damaged off the coast of Northern Ireland."

"A speedboat operating off the English south coast sank a 2,000-ton merchantman about 10 miles off the coast."

"These claims were not confirmed from British sources."

"A British merchant ship was captured with strong forces against London as well as war-important targets in the North Sea and the English Channel."

"British ships coming to the rescue."

"British planes coming by way of north-western Germany last night dropped incendiary bombs on Berlin, Stettin, Sirona and airfield fire prevented the aggressor from aiming at the city."

"Zinc house and several apartment houses were struck, causing a bloody civil war, is a tragic turn of the war. But Dakar is an outpost of the British Empire and its safety and vital concern for Canada."

"French may decide whether the French empire will be forced to fall before the arrival of the Axis."

The protest that free Frenchmen and adherents of Vichy may have been responsible for the bloody civil war, is a tragic turn of the war. But Dakar is an outpost of the British Empire and its safety and vital concern for Canada."

"French planes coming by way of north-western Germany last night dropped incendiary bombs on Berlin, Stettin, Sirona and airfield fire prevented the aggressor from aiming at the city."

"British figures were eight German planes destroyed as against four British."

"Major Macmillan and Galloway were also engaged."

The total tonnage sunk by Capt. Price during recent (subsequent) operations has now increased to 43,300 tons. Thus Capt. Price, besides sinking the British liner "Empress of India" and 134,000 tons of merchant shipping. With these successes he tops the list of all submarine commanders."

Italian

ROME, Sept. 25.—British planes again bombed Sicily, the Oaks Cafes in Libya yesterday.

The Italian high command announced that, but made no mention of the British, had been responsible for the British in Egypt."

The only Italian activity claimed to have come from the secret bombardment of British Kenya colony.

ROME, Sept. 25.—The Italian high command confirmed yesterday that British planes had bombed Sicily again.

"An enemy plane dropped bombs at Palermo without causing casualties or damage."

"There was no confirmation from British sources for any of the above statements."

Germany and Japan, the Tokyo

advises, agreed on a world-wide

ceasefire to be effective from

Sept. 26, 1940.

"All our efforts were directed to

"Italy's efforts to stop the raids

over Kenya Sept. 23, one at

Major and the other in the Tana

area," it said.

"No damage is reported from

either place, but there were a few

wounded."

LONDON, Sept. 25.—An air ministry spokesman yesterday said:

"Throughout the night our

enemy forces continued their

systematic attacks on the enemy's

territory in Africa and Asia."

"All our efforts were directed to

"Italy's efforts to stop the raids

over Kenya Sept. 23, one at

Major and the other in the Tana

area," it said.

"No damage is reported from

either place, but there were a few

wounded."

The Governor Starts Something

Add to the unexpected turns in the course of current events the small scale war in Indo-China. The governor of that French colony holds office by appointment of the Vichy cabinet. But while Marshal Petain was explaining that he had graciously agreed to allow Japanese troops to make Indo-China a base for an attack on the Chinese, his governor called on a whistling troupe he had and undertook to throw the invaders out. The Vichy cabinet, it seems, has no more real authority Indo-China than it has in France.

The Japanese press accounts for this curious development by inferring that the rebellious governor has expressed a lack of confidence in the United States will intervene on his behalf, accordingly informs Mr. Cordell Hull that terrible things will happen to his country if it does so, in language more likely to provoke intervention than to avert it.

The relevant facts are plain. Japan pledged itself to maintain the status quo in Indo-China. It has deliberately broken the pledge. And now defies "third powers" in general, and the United States specifically, to do anything about it.

The Dead-Lock Is Easing

The railways, it is announced, will move considerable quantities of western wheat to the eastern provinces, where accommodation has been found. This will further ease the congestion, already modified to a degree by the discovery that more space is available in western elevators than at first supposed and the raising of the general delivery quota from five bushels per acre to eight—and in some areas to ten or even fifteen. There is also a measure of prospective relief in the possibility that Herr Hitler may have to postpone his invasion and thus leave Britain free to start moving the large reserves it now has in Canada.

These changes in the situation mean that less wheat than expected will have to be stored on western farms, that more can be delivered during the fall weeks, and that advance payments needed on farm-stored wheat will be fewer in number, less in individual amounts, and less in total. That such payments will be required in a great number of cases is beyond doubt. But what seemed to be a few weeks ago an almost complete paralysis of wheat movement has turned out to be less serious, and is in prospect of further easing.

Dakar

Dakar lies at the extreme tip of the great bulge of northern Africa which juts out into the Atlantic. It is closer to South America, and to the West Indies, than any other good harbour on the African coast. The steamship lanes from both these areas to Europe pass at no great distance, while vessels to and from West African ports skirt the shore.

Dakar would thus be an ideal lurking place for Nazi U-boats commissioned to prey upon merchant ships plying between Britain and all points in the Caribbean and the South Atlantic. At no great cost of time and fuel the submarines could get into the traffic routes, which are among the busiest in the world. Probably this was in the mind of the Fuehrer when he gave his "consent" a week ago to Petain sending his men to Dakar. Their presence there would give an appearance of French authority, and provide a screen of presumed neutrality for his pirate craft.

General De Gaulle has led an expedition to Dakar, avowedly in the nature of a mission to the French territory of the territory whose support he would like to gain for the Free France movement. Beyond the official explanation of the enterprise there is obscurity as to what happened at the port and as to the part British forces were to play.

1910-20 Years Ago

Owing to the wires being down—their grange complaint—the Bulletin is without graphic despatches today.

R. B. Bennett, Conservative candidate for Alberta, will address a meeting in Robertson Hall tomorrow evening.

David Fleming has received and accepted a call to the pulpit of the Presbyterian church, Strathcona.

J. R. Brenton reports that a storm similar to the one in present evidence occurred 18 years ago this month, when snow fell to a depth of 16 inches.

1910-20 Years Ago

One of the finest exhibits ever sent out of the city was despatched this morning to New Westminster.

J. M. Clinidian, B.A., principal of Norwood High School, has been transferred to the staff of the high school.

The city commissioners will try to collect compensation from the C.N.R. because the street railway lost business through the low level bridge connecting the two cities.

S. A. Vugrin, who was in charge of the survey of the Saskatchewan, returned yesterday from a trip by canoe from Edmonton to The Pas.

1920-20 Years Ago

Dublin: Gen. MacCready denied that reprisals against the police have been given of the fixed price of £100,000 to the Government, but intimated that should these outrages continue that would be the outcome.

The Alberta Medical Association is holding its annual meeting in Edmonton.

Balmer, Alta.: Nearly one thousand persons, about half the population of this partly devastated town, crept back to their homes after spending two nights and a day in the open fields following the raid of two days ago.

1930-30 Years Ago

Winnipeg: Snow an inch deep lay over wide sections of Alberta and Saskatchewan today. The storm was one of the earliest in years.

Moscow: An earthquake destroyed seven villages and partly wrecked ten others in the Stalingrad district.

London: Russia, short of cash, is dumping wheat, timber and coal on world markets below production cost.

Vancouver: Justice T. J. Leslie announced that the federal government will order an investigation into the administration of justice in relation to the Doukhobors in British Columbia. The province has asked the Dominion to pay the cost of enforcing law among the Doukhobors.

One Edmonton to Another

In response to a communication to Major Fry from the chief magistrate of Edmonton, England, residents of this younger and rather larger city of the same name are being asked to contribute to a

"The day may not be far away when the geniuses of today will be matched by many, if not the average, of the future population."—Dr. Alex Hrdlicka.

Read Psalm 15.

The Passing Show

By J. S. COPPER

There'll be many a post-mortem held on the collapse of France, to probe charges of incompetence and betrayal. One of them has been offered the reading public within the last few days under the title of "Accuse". It is written by the former editor of a great French newspaper, now a refugee in New POST-MORTEM York, who writes under the pen-name of "Lippmann".

It purports to be the inside story of an eye-witness to the most colossal treachery in history. It names and tells of nobles and weaknesses. It fills its pages with the stories that are known with a long story of things that have been concealed, but which key into the known facts.

The story covers from 1933 till 1940, starting when Daladier "wain, intolerant and a narrow, resentful provincial," is said to have sought an audience with Hitler. According to Lippmann, Hitler, "fully supported" Bonnet's appeasement policy during the Munich crisis. Bonnet, it would appear, was the villain of the piece. He was a man of little principle, who was deep in foreign exchange speculations on his private account, the success of which depended on the success of Hitler. He is charged with having deliberately misinterpreted Gamelin's report on the British and having urged the "false" the British offer of aid on Sept. 29, 1939, so as to make it appear that in the event of hostilities France could not hope to win. Even after war was declared, says Simon, Bonnet still insisted on his independence and had at his disposal "a substantial fund" to finance French statesmen for a negotiated peace.

Laval, termed "the French Quisling," is denounced for his part in the betrayal of France. A poor boy from the Auvergne, he had become as legal adviser to Francois de Wendel of the Comite des Foyers. A man without scruples and with a deep-seated contempt for democracy.

Simon describes him. It was he who

HE SCORES who gave Mussolini the signal to STAMPEDE when he was in power.

and arranged to hand over Saar

back to Germany by means of a plebiscite. Of the Franco-Soviet pact he signed in Moscow, Simon says: "Laval repeated it a few days later to a senior conversation with Marshal Goering in Berlin."

Against Reynaud no charge of corruption is made. "Richly talented and ambitious," he had risen to power through a succession of easy triumphs. His relations with women and with the Comite des Foyers in particular had been a factor in his rise. On the advice of the Countess he reformed his cabinet to include the Faure, Weygand, the Franco lobbyist Petain, and Paul Baudouin, whose business interests as well as his political preferences led him to support Mussolini and favor Fascism.

Both men know this. In this respect the country is unusually fortunate. It might easily have been otherwise. But the political managers and their manufacturers do not know this, and both men would do well to remember that, once down the slippery slope where their hearts and consciences they know they should resist being pulled.

Both men know this. In this respect the country is unusually fortunate. It might easily have been otherwise. But the political managers and their manufacturers do not know this, and both men would do well to remember that, once down the slippery slope where their hearts and consciences they know they should resist being pulled.

New York Yankees Win Six Straight To Stay In Pennant Scramble

Browns Score 7-2 Upset Over Indians

By JUDSON BAILEY

Associated Press Writer

NEW YORK, Sept. 25.—New York Yankees have won six successive contests and the American League struggle is so tight that it would be possible by sundown tonight for Detroit and Cleveland to be tied again and the Yankees be in third place only one game behind.

The Yankees whipped Washington Senators twice yesterday, 6-5 and 9-4, while the Indians dropped a 7-2 decision to St. Louis Browns and Detroit was kept idle because of rain.

The Browns will play a doubleheader with Chicago White Sox today while their rivals play single games, making all sorts of situations possible.

The Yankees' chances for another championship still are good, but to get to all their remaining games Detroit must lose in order to get even a tie.

Yesterday's big hitting show was the result of a doubleheader in which Boston Red Sox beat the A's 16-8. Boston must win its last two games and the second game Boston's Jack J. Wilson bested Bill Beaton's 4-3. Wilson

Cleveland's Jim Piersall had 10 hits.

Fox, Williams and Cronin tied the major league record with successive home runs in first game and Detroit's second win came against Athletics in second game.

The only game in the National

DOWER URGES AVOIDANCE OF CITY ELECTION

Chairman Citizens' Committee States Views On Civic Vote

"British democracy must be appealed for the avoidance of the expense and disturbance of a civic election this year because our country is at war and the Dominion government is appealing to us to co-operate in restricting private spending so that funds may be made available for our war effort," said Mr. John Dower, chairman of the Citizens' Committee, at its annual meeting held Tuesday evening at the Carlton hotel.

In advancing this suggestion Mr. Dower said that it was not really a civic issue before the public to make this suggestion that we should avoid an election on all issues, in any body of the three branches of government which have the monopoly of civic government.

He would oppose any suggestion that any citizen or group of citizens would be barred from the exercise of their rights, citizenship, or that we should establish a precedent of depriving the electors of what they have a right to make in the selection of their civic administration," he stated.

"I feel that in this year of war we should attempt to avoid the cost and turmoil of a civic election if we can possibly do so," he stated.

EFFICIENCY ASKED

Opening his address Mr. Dower said that "the efficiency of the city in time of war as well as in peace is the greatest possible vigilance and the highest possible factor in the proper conduct of our city's affairs. Particularly is this so in Edmonton where such an enormous part of our community life and enterprises are carried on by, or under the direction of the city."

He pointed to the improvement of the city's affairs during the four years of war, which had been active, and added that if the conditions into which the affairs of the city had fallen prior to the draft had continued, it would have had a serious effect on the civic morale of the people.

The aim of the Citizens' Committee, he said, for its inception has been to provide a medium through which the citizens of Edmonton could elect to civic office the type of men and women who, having given their hearts to the city at heart, also had the experience and training which would fit them best as directors of city administration.

No attempt has been made to get uniformity of opinion with respect to the question of whether or not holding an election or in the course of the year, stated Mr. Dower, and going back over the various occasions on city council and school board, members elected under the Citizens' Committee, have disagreed sharply in matters of great importance.

TRULY DEMOCRATIC

"We have tried to make this organization truly democratic as well as entirely representative of the citizenship of Edmonton. It has been done, I think, and incidentally our candidates represent a cross section of our community," he said.

Our choice of candidates show that we welcome in the organization men from every section of the city's population who are in sympathy with the purpose of the organization. We have failed to function as a Citizens' committee if it does not continue to be representative of the entire citizens of Edmonton," he concluded.

Major John W. Fry briefly reviewed his record as mayor for the past two years. He said that the floating debt had been considerably reduced, each year the mill rate had been cut, the capital debt reduced, and sympathetic treatment accorded the city's veterans.

He commanded the adherents board on the co-operation assumed him, and referred to their unusual fidelity in the matter of abstaining from any source.

EXECUTIVE ELECTED

Executive committee, elected at the meeting on August 21, included Col. John Macdonald, D. Moodie, Percy Herring, E. Gunderson, L. Y. Clegg, A.C. Henry, Ross, Carl Berg, George B. McLean, A. Bruce, Whittaker, John Dower, A. Fraser Duncan, K.C., E.W.S. Kane, F. H. McLean, J. M. McLean, G. McLaren, D. R. Innes, E. Lovelace, H. Morrison, J. P. Neeson, A. Busch, W. H. Bell, W. M. McLean, W. Thompson, Mrs. W. D. Ferris, R. C. Garry, W. Kelly Porter, Harold L. Hart, J. H. Johnson, J. H. McNeely, Mrs. J. H. Atherton, G. W. Auxier, A. Boucic, L. A. Weber, George Hadden, J. H. McLean, and J. P. Parpart. First meeting of the executive will be held on Friday evening.

ALL PUPILS IN SCHOOL MUST SALUTE FLAG

Resolutions passed on January 9, excusing from attendance at the saluting of the flag ceremony those children whose parents objected on religious grounds to the ceremony, was rescinded by the Edmonton Public School Board on a motion by Mrs. W. J. Ross, trustee, at the regular meeting Tuesday night.

Mrs. Ross stated that the reason she moved to rescind the resolution was because the organization that was opposed to the salute ceremony has since been outvoted.

She mentioned cases of parents

BRITAIN NEVER TO BE QUELLED SPEAKER SAYS

**Rev. E. J. Springett Says
British Are Meant To
Stand Alone**

"We have the right to have diplomatic alliances with those allied at the side of Anti-Christ," declared Rev. E. J. Springett of the Christian Science church hall Tuesday evening in behalf of the British Israel World Federation.

Mr. Springett took as his subject, "There'll Always Be An England," and was referring to the imminent invasion of Britain from Dunkirk. He declared that Britain was not meant to have associations with France and Belgium, and that the Dunkirk episode was a manifestation of the controlling power of Amalgamated Capitalism.

Reviewing events of the war over the past year, Mr. Springett said that the fall of France was a symptom of the apparent downfall of France. If people had known what the Bible had to say about the fall of France, he said, they would have known that Britain was meant to stand alone in this war.

HITLER'S DOWNFALL

"From the 25th of June Hitler's downfall began," he continued, referring to Hitler's promise to be Britain by 1940. As of August, Mr. Springett announced that Britain had not yet got there, nor he never will. He said logically that "he has not got there, nor he never will." The kingdom of Britain will not be destroyed, for it is the kingdom of God, and only after this great suffering will this great kingdom on earth begin to reign. Our race is charged with responsibility.

INVASION TO FAIL

Mr. Springett, basing his remarks on quotations from the Bible, cited his belief that the world-wide "Invasion of Britain" will fail, but Hitler will not cease his attempts to conquer the world. Canada will not go free in this struggle, and trouble will erupt in Egypt, Turkey and Greece. But because we are a strong and勇敢 nation, Britain will not be invaded and there'll always be a way out.

Rev. Springett will lecture again Wednesday night on "Hitler's Downfall."

NO "SPITFIRE" FUND LISTS IN CITY SCHOOLS

Request of the City of Edmonton Spitfire Fund Committee for permission from the Edmonton Public School Board for the distribution of memoranda lists among the teachers and students and children to help boost the drive now underway in the city to buy a Spitfire fighter plane to be aboard a meeting Tuesday night.

The board felt that in view of its standing to allow any form of canvassing for money, it would not introduce it directly into the schools. It could not grant the request, but it has been agreed by the aim of the board, members emphasized to try as much as possible to eliminate any embarrassment that might be caused among students with limited means to contribute.

Only campaign of this nature, while the board has allowed the sale of war bonds, is the Canadian Legion for Remembrance Day. It was also pointed out by A. Alderman Great, president of the board, that the war savings stamp, in the schools, is merely an amplification of the school banking system for students.

Ald. Great briefly reviewed his record as mayor for the past two years. He said that the floating debt had been considerably reduced, each year the mill rate had been cut, the capital debt reduced, and sympathetic treatment accorded the city's veterans.

He commanded the adherents board on the co-operation assumed him, and referred to their unusual fidelity in the matter of abstaining from any source.

EXECUTIVE ELECTED

Executive committee, elected at the meeting on August 21, included Col. John Macdonald, D. Moodie, Percy Herring, E. Gunderson, L. Y. Clegg, A.C. Henry, Ross, Carl Berg, George B. McLean, A. ALL PUPILS IN SCHOOL MUST SALUTE FLAG

Resolutions passed on January 9, excusing from attendance at the saluting of the flag ceremony those children whose parents objected on religious grounds to the ceremony, was rescinded by the Edmonton Public School Board on a motion by Mrs. W. J. Ross, trustee, at the regular meeting Tuesday night.

Mrs. Ross stated that the reason she moved to rescind the resolution was because the organization that was opposed to the salute ceremony has since been outvoted.

She mentioned cases of parents

World-Wide News Pictures By Bulletin Cameramen

"Action Stations!" Transforms Crew of Canadian Destroyers Into Smoothly Working Machine

"Action Stations!" is the electrifying command that instantly transforms the crew of a Canadian destroyer from a group of men into a swift and smoothly working machine that responds to the slightest word or wave of the hand from the bridge. Thoroughly knowing their appointed tasks, the sailors turn about like clockwork as the gunners load their guns. At left, a gunner of the Royal Canadian Navy, centre, while the officer in charge looks on. The gunnery officer is shown, left, in a free control tower from where he directs the aiming and firing of the guns. Steel belted sailors spring to their posts to man an anti-aircraft pom-pom gun, right, as the shrill command "Action Stations!" rings across the deck of the destroyer.

London Traffic Warning: "Trouble Ahead"

Motorists entering the Metropolitan area from suburban areas where no alarm has been sounded are warned by roadside signs that Germans are attacking. An air raid warden stands by to give further information.

Canada's Busy Defence Minister

Hon. J. L. Richardson, minister of national defence, has little time out from his wide duties. He is shown above addressing the troops during his visit to South Training Camp in Brandon.

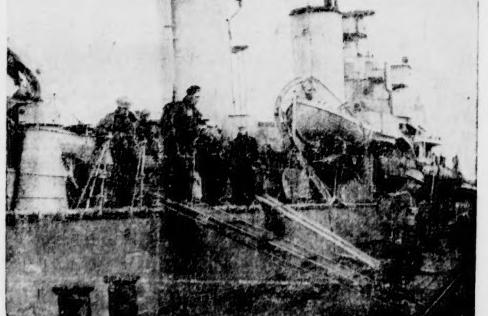

East Meets West, Coming And Going

East met West under ironic circumstances when the above photo was snapped in Shanghai. It shows a truckload of Japanese marines, part of an incoming naval landing party, boldly watching as departing British troops march past en route to a transport for evacuation to Hong Kong.

Rulers' Underground Palace

This is a drawing of the temporary shelter, a former residence, now used by King George and Queen Elizabeth in Royal York Palace, where they are staying while the royal couple and other royal family members are in the United States. Ready on table, at right, are two flashlights. The drawing is reproduced from a recent issue of the London "Sunday Express."

Canadians Guard Eastern Outpost

Landing in historic Newfoundland. The troops leave the destroyer to take up their posts. And a very welcome the force was to the people of that ocean-girt Empire possession.
